Agenda:

- Overview of Kantara Initiative
- Federation and Trust Frameworks
- Identity Assurance Framework
- Accreditation / Certification
- Next Steps

Kantara Initiative: Overview

Values

- **Trust:**
Operating Accreditation, Approval and Certification programs to ensure trusted network environments are available to support generative growth within the Internet.
- **Privacy:**
Developing solutions for secure, identity-based, privacy-respecting online interactions.
- **Community:**
Bridging technologies and policies to harmonize effective solutions related to online identity.

Kantara Initiative: Overview

Federation, Compliance, and Interoperability

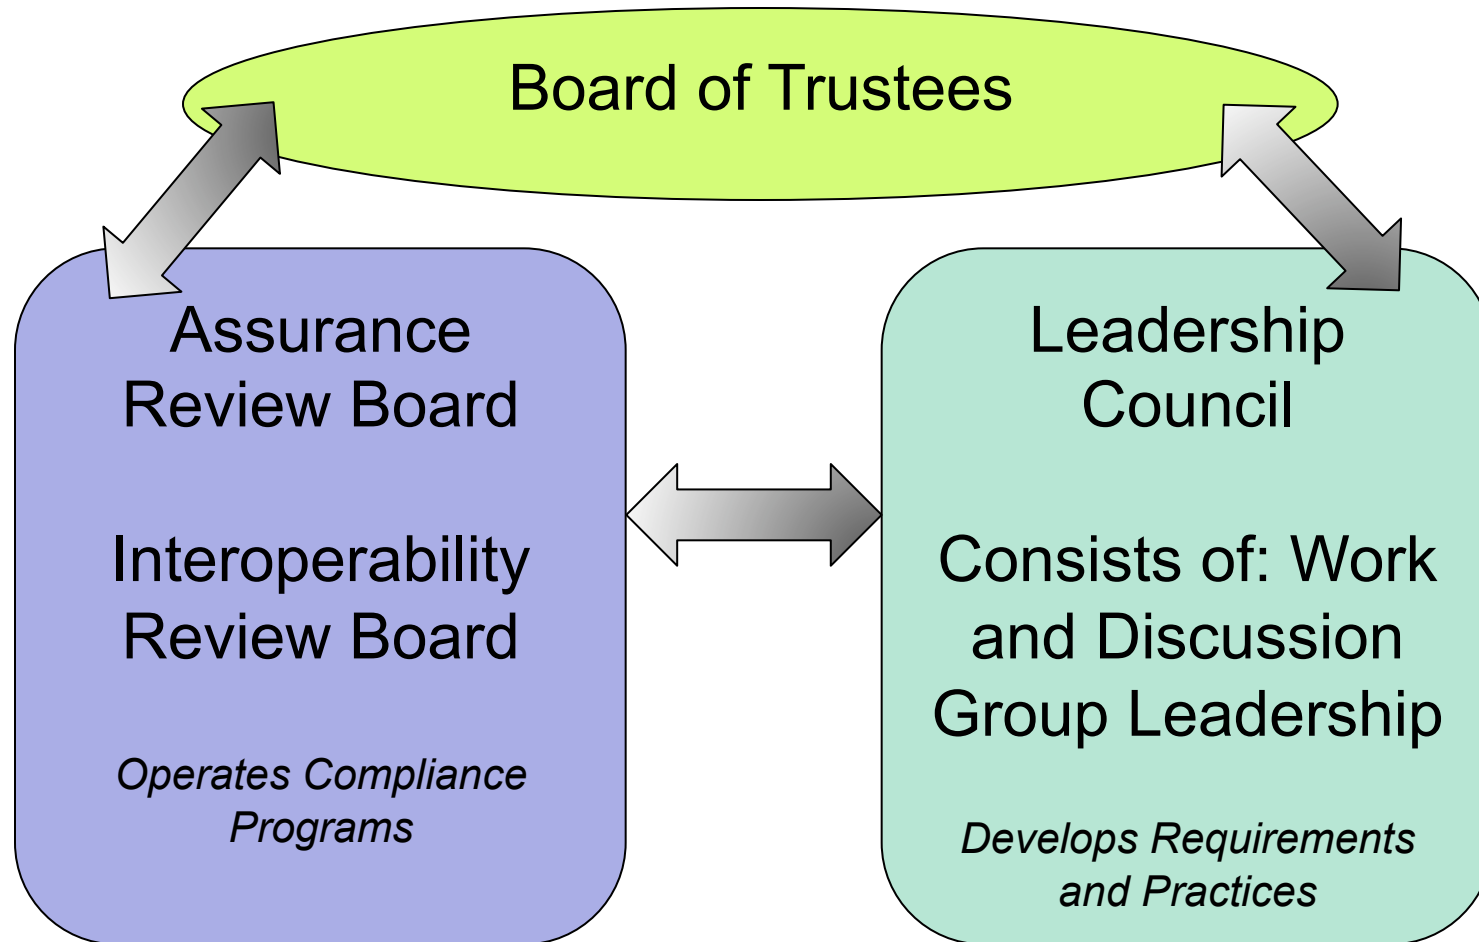

Kantara Builds Bridges

Focus on the **harmonization** of existing and evolving solutions.

Operating compliance programs for **multiple solutions** that fit a variety of requirements and jurisdictions.

Federation and Trust Frameworks

Federation Good

What is good?

- Strengthening communities
- Opening of new markets
- Enhanced privacy for end users
- More and better services to the users
- Re-use of user names and passwords

Source: http://www.apan.net/meetings/Sydney2010/Session/Slides/Middleware/APAN29_interfederation-Simeonsen.pdf

What is bad?

- Lingua franca for inter-federation? SAML2?
- How to announce new services?
- Legal stuff...

Source: http://www.apan.net/meetings/Sydney2010/Session/Slides/Middleware/APAN29_interfederation-Simeonsen.pdf

What is ugly?

- Identity-management requirements
- Semantics
- SAML2 interoperation profiles (saml2int.org)
no longer 'just' Shibboleth

Federation and Trust Frameworks

Target Audience & Value Proposition

Target Audience

- Enable **End-users (Enterprise, Governments, Communities)** to trust credentials issued by **Identity Providers / Credential Service Providers**

Value Proposition

- Increased security
- Compliance with laws, regulations, and standards
- Improved interoperability
- Enhanced customer service
- Elimination of redundancy
- Increase in protection of Personally Identifiable Information (PII)

Federation and Trust Frameworks

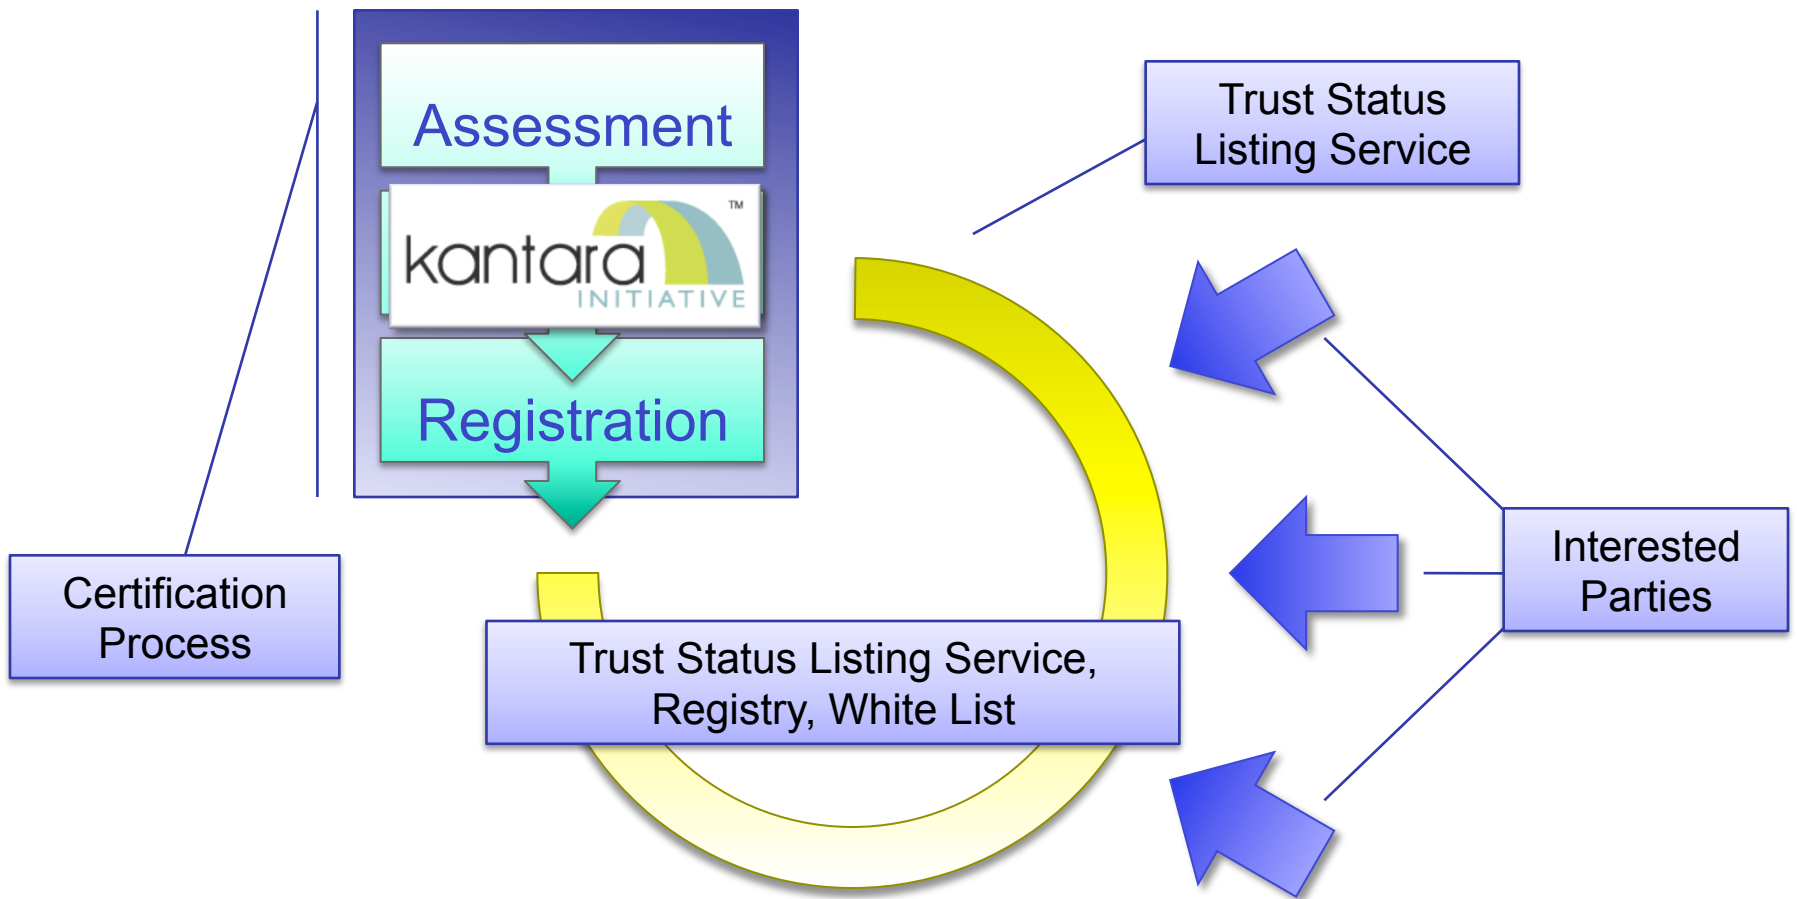

Levels of Assurance : Illustrated

Assurance Level	Example	Assessment Criteria – Organization	Assessment Criteria – Identity Proofing	Assessment Criteria – Credential Mgmt
AL 1	Registration to a news website	Minimal Organizational criteria	Minimal criteria - Self assertion	PIN and Password
AL 2	Change of address of record by beneficiary	Moderate organizational criteria	Moderate criteria - Attestation of Govt. ID	Single factor; Prove control of token through authentication protocol
AL 3	Access to an online brokerage account	Stringent organizational criteria	Stringent criteria – stronger attestation and verification of records	Multi-factor auth; Cryptographic protocol; "soft", "hard", or "OTP" tokens
AL 4	Dispensation of a controlled drug or \$1mm bank wire	Stringent organizational criteria	More stringent criteria – stronger attestation and verification	Multi-factor auth w/hard tokens only; crypto protocol w/keys bound to auth process

Note: Assurance level criteria as posited by the OMB M-04-04 & NIST SP 800-63

Trust Framework Profiles

Building on the Core

- **Identity Assurance:**
Building in service module approach enabling Identity Proofing, Credential Management and Organizational component assessments
- **Privacy Assurance:**
Building upon the Kantara US Federal Privacy Profile the Privacy and Public Policy (P3) WG is building Privacy Assessment Criteria (PAC) for audit controls applied in a Privacy Assessment.
- **Attribute Management (AM) Assurance:**
Performed landscape review of varying AM standards and development activities in Identity focused communities

Status and Lessons Learned

- Status:
 - Operational SAML Framework
 - Operational Organization
 - Approved for US Government Use through LOA 3
 - Referenced by eGov communities including Canada, New Zealand, Sweden
 - Assessments in progress
 - International Partners
- Lessons Learned So Far:
 - Need Additional Members, Participants, and Customers
 - Need Additional Technical Frameworks
 - Need Additional Levels of Assurance
 - Need Additional Privacy Profiles
