Kantara – Patient NHIN Login Project

(AL-3 required)

ICAM compatible/ certified Service??

Federated SSO + Directory (Shibboleth?)

Personal Health Records (un-tethered)

Issues:
1. PHRs must be trusted by NHIN (policy, legal framework)
2. PHRs should/must support SAML2.0
3. PHRs could be run by various groups
4. Information could exist on cell phones
