Meeting Notes:

As the agenda indicates, one of the main purposes of this call was to try to reconnect with representatives of financial services organizations and chart a future path for this committee. The past several meetings did not attract participants from financial services organizations, and without their participation this committee really cannot function in any meaningful way.

Since no representatives from financial services organizations participated on this call, or responded to the email agenda sent to the mailing list, we agreed that there appears to be little reason to schedule future calls. We agreed to suspend future calls until further notice.
