CHARTER OF

THE SECURITY COMMITTEE

This draft dated 20 December 2012

Official Title

Security Committee (SC).

Rationale

The Security Committee shall respond to issues generated during the implementation of the Secure and Resilient Guiding Principle of the National Strategy for Trusted Identities in Cyberspace in the Identity Ecosystem Framework.

Objectives

The Security Committee is responsible for defining a Security Model for the Identity Ecosystem Framework. This Security Model will be used to evaluate capabilities of the Identity Ecosystem components, such as confidentiality, authentication, non-repudiation, integrity, and availability.

The Security Committee shall identify security gaps in the Identity Ecosystem Framework and make recommendations to remedy them.

- Development of Standards.
- Security evaluation of commercial and/or marketplace products.

Security Committee Work Plan

- (8) Maintain a Security Committee standing document of security gaps and obstacles for the Identity Ecosystem (technical, regulatory, industry-specific, international implementations).
- (9) Identify resource material that will assist in the development of Security Committee work items. A repository will be maintained by the IDESG Secretariat which will comprise a collection of related references of such material, subject to the appropriate copyright, ownership, or IDESG IPR policy restrictions.

Liaisons

- The Security Committee is interested in working with any of the IDESG Committees that consider aspects of the Identity Ecosystem Framework which we determine to be security-related or which enhance the capabilities of the Security Committee.
- The Security Committee is also interested in security-related activities in SDO's, industry consortia, and federal organizations. The Security Committee will work closely with the Standards Coordination Committee to ensure that such interests are represented.

 - Liability and Contract Model Development Committee
 - Privacy Coordination Committee
 - Standards Coordination Committee

Duration

The Security Committee will work through the items identified above in its intended Work Plan as expeditiously as possible, using available resources, and based on the appropriate prioritization of the work items. It is expected that this work will take no less than twelve months to complete. It is anticipated that a process for the ongoing maintenance of items within the completed Work Plan will be determined by the IDESG.
