

IDESG Deliverables Dashboard
10/09/2015
Accompanying Narrative

From IDESG Framework Management Office, OASIS
Latest version: http://idecosystem.org/filedepot_download/1817/1686

Please note that the IDESG web site and document repository will be migrating to a new web site (idesg.org) during October, and links to documents may fail. Future dashboard updates will contain updated links.

This textual summary of highlights is provided to accompany our “dashboard” spreadsheet(s), which report status data on current IDESG projects relevant to the Identity Ecosystem Framework. Links to related documents may be found in the “full” dashboard spreadsheet, which also lists inactive and completed projects. Current and historical “full” dashboard files are available in the IDESG document repository, under the "Framework Management Office – IDESG Dashboard" folder (<https://www.idecosystem.org/filedepot/folder/169>).

Our information is only as good as reporting and visibility permits, so corrections and suggestions always are welcome. We meet regularly with the IDESG Committee Chairs group to solicit additional status data.

NOTE: **Red text** in the dashboard spreadsheets indicates a **change** since the previous version. Task index numbers cited below are keyed to the first column of the dashboard grid.

1. Leading up to the expected Plenary approval of the Baseline IDEF Requirements with Supplemental Guidance on October 15, the four source committees have completed their Version 1 requirements tasks - Privacy (PRIV04), Security (SECU10), Standards (STDS10), and User Experience (USER08). The approved Requirements will provide the principal content for the IDESG's planned self-assessment tool (SALS) to be launched in at the end of 2015.
2. Working with guidance from the TFTM committee, FMO staff (SME-05-TFTM) have drafted rules, tool frameworks and the support structure needed to support an IDESG Self-Assessment Listing Service (SALS) program for identity ecosystem participants. (TFTM09, USER05). The dashboard now tracks 24 separate deliverables under TFTM09. A subset of these have been the focus of intense review and revision by the TFTM Committee members, in preparing the “minimum viable product” to enable SALS to operate by the end of 2015. The “full” dashboard provides individual links to the recent published versions of the SALS documents, in the TFTM SALS folder (<https://www.idecosystem.org/filedepot/folder/218>), or as email archive attachment links.

3. The Standards Coordination Committee (SCC) is continuing to evaluate identity-related standards (with staff support under SME-02-STDS) as potential additions to the IDESG Standards Registry. As listed in (STDS09), the SCC has recently approved a group of standards for OAuth v2 and OpenID Connect. Evaluation of ISO-IEC 27001 and 27002, and UMA are next. The SCC maintains a wiki listing the standards in the Registry at (https://www.idecosystem.org/wiki/IDESG_Standards_Registry).

4. We continue to encourage you to add additional standards and specifications that are relevant to identity ecosystems to the growing IDESG Standards Inventory (see <https://www.idecosystem.org/wiki/Category:Standards>). IDESG publishes this list to the community as an open, non-evaluative series of pointers to possibly-relevant work.

5. The Healthcare Committee is continuing work on its Patient ID Requirements. Recent draft work is draft v11.3a, at https://www.idecosystem.org/filedepot_download/1205/1954.

6. Note that the full range of information for each deliverable, including links to related documents, is to be found in the “full” spreadsheet (by date under <https://www.idecosystem.org/filedepot/folder/169>), and may not be reflected in the “simple” spreadsheet below.

IDESG DELIVERABLES DASHBOARD 10/09/15 Public Release			Note: Active deliverables	Green = complete, Gold - underway, Red = late, White = not started											
			Note: Only substantial	STATUS:							DEPENDENCIES				
Index number	Deliverable	D=Document A=Action	Committee	Committee approval	Privacy Comm review	Mgmt Council review	Plenary approval	Next milestone & date	Expected Plenary action	STAFF assistance	This is dependent on:	This is needed to produce:	Comments	Last status update:	Editor or contact person
PRIV03	Improve clarity and usability of some worksheets in PEM v2.0	A,D	Privacy					staffing task order - TBD	N/A	SME-03-PRIV - proposed				5/1/2015	Jenn Behrens
