66 1 INTRODUCTION

67 This document (Report: Code of Conduct for Relying Parties) provides supporting guidance
68 to the controlling documents of the Kantara Initiative Identity Assurance Framework (IAF) so
69 that, in the fullness of time, the IAF and its controlling document suite could be extended to
70 include the role of Relying Parties (RPs).

71 The intended audience for this document are Trust Framework operators that may require
72 requirements for RPs be specified.

73 A complete Code of Conduct for Relying Parties, that spans the full extent of a RP's policies,
74 processes and procedures, might include Sections such as the following:

- 75 1. Data Protection,
- 76 2. Admin, Record Keeping and Process,
- 77 3. Audit and Compliance,
- 78 4. Exit and Off Boarding and
- 79 5. Marketing.

80 It should be noted that other aspects, applicable to a given context or domain, might be
81 required to make it comprehensive.

82 At this time the document is not intended to be a complete set of requirements for good
83 behaviour of a RP. Rather, it is intended to give pointers to the range of topics that should
84 typically be addressed in describing this set of requirements. A few exemplars have been
85 provided for some of the topics.

86 **2 ON CONCEPTUALIZING A TYPICAL TABLE OF** 87 **CONTENTS FOR A CODE OF CONDUCT FOR RELYING** 88 **PARTIES**

89 This document offers an insight into what a typical Code of Conduct for Relying Parties
90 might contain by presenting a draft Table of Contents. Further, it assumes that the Code of
91 Conduct for Relying Parties would form just one component of a larger document suite (e.g.,
92 the IAF) covering other aspects of federated identity activities.

93 It assumes that the following artefacts and conditions exist in that broader framework
94 document set for the federation:

- 95 1. a set of agreed definitions/terminology,
- 96 2. Scope and specification of the Relying Party activities,
- 97 3. a legal contract in force to make all obligations clear for interpretation,
- 98 4. that a federated trust framework is operating, and
- 99 5. that a quality ISMS is operating in the RP/AP environments.

100 With the above conditions met, a Table of Contents for the Code of Conduct for Relying
101 Parties aspect of the document set might include:

- 102 • Introduction and Purpose
- 103 • Executive Summary
- 104 • Assumptions
- 105 • Definitions/Terminology
- 106 • References and bibliography
- 107 • Activities in scope for the Relying Party
- 108 • Data Protection*
- 109 • Administration, Record Keeping and processes/procedures*
- 110 • Audit and Compliance
- 111 • Exit and Off boarding*
- 112 • Marketing

113 * (note: example text for this topic has been drafted below)

114 **3 EXEMPLAR DRAFT TEXT FOR THE TABLE OF** 115 **CONTENTS HEADINGS ABOVE SELECTED AND** 116 **MARKED AS ***

117 Note: the text in square brackets [...] indicates a principle or objective that the statement
118 seeks to address.

119 **3.1 DATA PROTECTION**

120 The RP/Service Provider agrees and warrants:

- 121 1. [Legal compliance] to only process the Attributes in accordance with the relevant
122 provisions of the law applicable to the RP/Service Provider/Federation;
- 123 2. [Purpose limitation] to only process Attributes of the End User that are necessary for
124 enabling access to the service provided by the Service Provider;
- 125 3. [Data minimisation] to minimise the Attributes requested from a party to the
126 Federation to those that are adequate, relevant and not excessive for enabling
127 access to the service and, where a number of Attributes could be used to provide
128 access to the service, to use the least intrusive Attributes possible;
- 129 4. [Deviating purposes] not to process the Attributes for any other purpose (e.g. selling
130 the Attributes or selling the personalisation such as search history, commercial
131 communications, profiling) than enabling access, unless prior consent has been
132 given to the Service Provider by the End User;
- 133 5. [Data retention] to delete or anonymise all Attributes as soon as they are no longer
134 necessary for the purposes of providing the service;
- 135 6. [Third parties] not to transfer Attributes to any third party (such as a collaboration
136 partner) except 1. if mandated by the Service Provider for enabling access to its
137 service on its behalf, or 2. if the third party is committed to the Code of Conduct or
138 has undertaken similar duties considered sufficient under the data protection law
139 applicable to the Service Provider or 3. if prior consent has been given by the End
140 User;
- 141 7. [Security measures] to take appropriate technical and organisational measures to
142 safeguard Attributes against accidental or unlawful destruction or accidental loss,
143 alteration, unauthorized disclosure or access. These measures shall ensure a level
144 of security appropriate to the risks represented by the processing and the nature of
145 the data to be protected, having regard to the state of the art and the cost of their
146 implementation.

Code of Conduct for Relying Parties for services to Government

- 147 8. [Information duty towards End User] to provide to the End User, at least at first
148 contact, in an easily, directly and permanently accessible way a Privacy Policy,
149 containing at least the following information:
- 150 1. the name, address and jurisdiction of the Service Provider;
 - 151 2. the purpose or purposes of the processing of the Attributes;
 - 152 3. a description of the Attributes being processed
 - 153 4. the third-party recipients or categories of third party recipient to whom the
154 Attributes might be disclosed, and proposed transfers of Attributes to
155 countries outside of the jurisdiction/federation
 - 156 5. the existence of the rights to access, rectify and delete the Attributes held
157 about the End User;
 - 158 6. the retention period of the Attributes;
 - 159 7. a reference to this Code of Conduct;
- 160 9. [Information duty towards the Federation party/IDP] to provide to it or its Agent at
161 least the following information:
- 162 1. machine-readable link to the Privacy Policy;
 - 163 2. indication of commitment to this Code of Conduct;
 - 164 3. any updates or changes in the local data protection legislation, which are less
165 strict than the principles set out in this Code of Conduct;
- 166 10. [Security Breaches] to, without undue delay, report all suspected privacy or security
167 breaches (including unauthorized disclosure or compromise, actual or possible loss
168 of data, documents or any device, etc.) concerning the Attributes, to the Federation
169 Party/IdP or its Agent;
- 170 11. [Transfer to third countries] when Attributes are being transferred outside the
171 jurisdiction and to countries with adequate data protection pursuant to adequacy
172 law/rules etc. to ensure an adequate level of protection of the Personal Data by
173 taking appropriate measures pursuant to the law of the country in which the
174 RP/Service Provider is established, such as requesting End User consent or entering
175 into agreements with the RP/Service Provider.

176 **3.2 ADMIN, RECORD KEEPING AND PROCESSES/PROCEDURES**

- 177 1. [Payment] pay the Charges in accordance with XXXX clause in the Federation
178 Agreement;

Code of Conduct for Relying Parties for services to Government

- 179 2. [Co-operation] co-operate with Federation/IdP personnel in connection with its
180 background checking/identity proofing of RP/SP responsible officers, registering
181 authorisation policy for and provide access to records and resources, operation and
182 safe-guarding of the Service/s; and advise IdP promptly of any Service anomalies,
183 suspicious or unusual usage, or complaints relating to the Services and provide
184 reasonable assistance to Federation/IdP in the investigation of such anomalies,
185 usage or complaints;
- 186 3. [Standards Compliance] comply with any standards or specifications issued by the
187 Federation/IdP and any reporting obligations required by the IdP/AP from time to
188 time in accordance with any relevant legislation (including those of a contracted third
189 party to the RP/SP)
- 190 4. [Audit] provide appropriate assistance, where reasonably requested by IdP/AP, in
191 carrying out any audit of the Client's use of the Services or related systems or
192 suppliers; comply with all certification and accreditation requirements
- 193 5. [Federation Reporting] participate in progress reporting as specified in the Service
194 Schedule;
- 195 6. [Transparent Relationship] ensure that the agency Service Provider/RP's website
196 terms and conditions explain the inter-relationship of the Services and the Client's
197 systems in terms agreed with Federation/IdP; that the RP/Service Provider maintains
198 an accurate and up to date register of its roles and activities
- 199 7. [Promotion] use its best endeavours to promote the Services and instructions for
200 use, to its customer base to encourage service uptake and use;
- 201 8. [Maintenance and notification] use and maintain the Service Interface including the
202 security between the Client's systems and the Service
203 System; register/modify/remove/retrieve meta-data, maintain PKI certificates as
204 defined in the XX Federation Documentation XX; notify IdP of any network changes
205 or certification renewals that may impact on any part of the Service, use the Admin
206 interface to register and update details relating to the Service and the officers
207 charged with administering the service
- 208 9. [Technical Consistency] Requirements for mandatory conformance testing before
209 being connected to the production environment; Requirements for session
210 management and logout (e.g. requirements for session timeout periods and single
211 logout behaviour across the federation); Requirements for logging certain events
212 (e.g. SAML Request/Responses) and to establish correlation identifiers in logs;
213 Requirements for UI (to ensure a consistent user experience across the federation -
214 e.g. layout and placement of 'logout' buttons etc.); Requirements for certificates used
215 to secure communication between SP and IdP.

216 3.3 EXIT AND OFF BOARDING

- 217 1. [Exit and off boarding] RP must have an explicit written policy to address and
218 mitigate impacts to existing users (e.g portability of accounts if feasible, re-
219 enrollment, credential switching) in the event that the RP terminates or is terminated
220 from its role.
- 221 2. [Exit and off boarding] RP must have predetermined processes to put into action to
222 update Helpdesk on status, call handling procedures and documentation, website
223 information, test scripts and system flows to reflect the terminated state of the RP
