US_FPP_20SEPT_ #02	**2. Lines 80-85 Please rewrite this in English.** Use multiple simple sentences. This is a one-sentence paragraph that is not intelligible.	Language updated to address comment 02 & 03: *If Subjects are allowed to establish a continuing approval or denial for release of certain attributes, for example to avoid being asked anew each time, then there must be some mechanism by which an Identity Subject can alter or withdraw any of those established preferences.* *Note: CSPs are not*

		expected to provide such a mechanism for attribute-level opt- out for Identity Subjects when the Identity Subject is engaging with a government application on behalf of their employer or university. However, the attributes required by the RP application to complete the transaction must be pre-arranged by policy agreed to between the CSP and the RP well in advance of the transaction and must comply with section 2.3 below. **Disposition: Addressed**
US_FPP_20SEPT_#03	**3. Add a section at line 86 or line 93** "Revocation – There must be a supported mechanism by which an identity subject can alter or withdraw a previously submitted informed consent."	See resolution stated above in comment 02. **Disposition: Addressed**
